

PRESS RELEASE

Sandvik Coromant Declared PCTI Business Partner of the Year!

Wayne, NJ – FOR IMMEDIATE RELEASE – Passaic County Technical Institute (PCTI) knows that developing strong partnerships with local businesses is paramount to student success. Such relationships present the unique opportunity for real-world experience through internships, job shadowing, School-to-Career programs, and so much more. Each year, PCTI selects one of their many business associates as their Business Partner of the Year in order to recognize the tremendous impact they have had on our students. This year's honor goes to Sandvik Coromant of Fairlawn!

Sandvik Coromant has been an active participant in PCTI's Manufacturing Technology Department for a number of years. The company serves on the high school's Advisory Board Committees for both Manufacturing and Engineering Technology. Such involvement allows Sandvik Coromant to discuss opportunities for success, employment outlook, innovative training techniques, and emerging industry standards, thereby ensuring that PCTI students receive the ultimate education in their career choice.

In addition, Sandvik Coromant has opened the doors of their Productivity Center to students for training and shadowing. Within the past two years, more than 100 students have shadowed with this prestigious company. Sandvik Coromant's dedication to PCTI and its students is further showcased by their generous donations of tooling for CNC machines, materials for student projects, and their technical advice/training with programming.

Congratulations to Sandvik Coromant, PCTI's newest Business Partner of the Year. Thank you for investing your time in the education of Passaic County Technical Institute students!
